

A woman with blonde hair in a bun and glasses, wearing a pink shirt, is smiling and looking at a computer monitor. A man with a beard, wearing a light blue shirt, is leaning over the desk, looking at the same monitor. The desk is made of light-colored wood. Two computer monitors are mounted on silver adjustable arms. The background shows a window with horizontal blinds.

Novus CLU

The Perfect View for What You Do

Adjustable Comfort

Novus CLU Monitor Arms easily glide, turn, and tilt into any view that's perfect for what you do. Designed with your comfort in mind, these new monitor arms move seamlessly into a personalized viewing position.

More Space

Create more workspace by lifting technology off your desk. These space-saving arms elevate monitors effortlessly, hide cables, and can be hidden behind the monitor for an organized appearance.

Durable

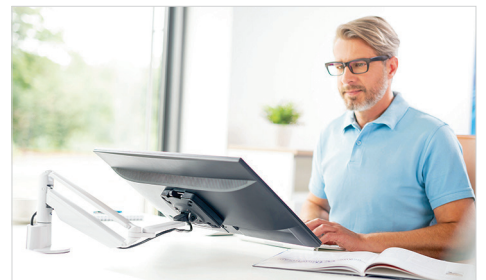

Aluminum construction and Stabilus Gas Spring technology ensure long-lasting performance. These monitor arms are German engineered and held to the highest standards for quality.

Smooth Rotation: Monitor rotation for landscape or portrait viewing.

Easy Alignment: Gas spring movement and flexible joints for perfect dual monitor alignment.

Optimal Positioning: Lift, turn, and tilt to find your perfect viewing position.

Novus CLU I

The CLU I is designed to enhance comfort by elevating a monitor to its ideal viewing position.

- Enhances comfort and improves ergonomics with custom-fit adjustability
- Provides more space by elevating a single monitor above the work surface
- Smooth joint movement for easily changing distance, angle, and rotation
- Stabilus Gas Spring provides effortless vertical movement
- Arm conceals behind the monitor and hides cables for a clean look
- German engineered with aluminum construction for quality and durability
- QuickRelease connection makes it easy to relocate or upgrade monitors
- Monitor arm weight capacity up to 15.4 pounds
