- (1) Column (RS4X-COL-xx)
- (1) Foot (RS4X-xx-F)

(1) Column

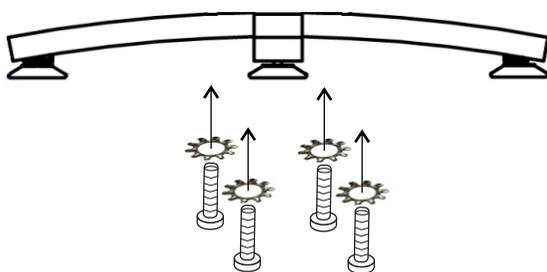

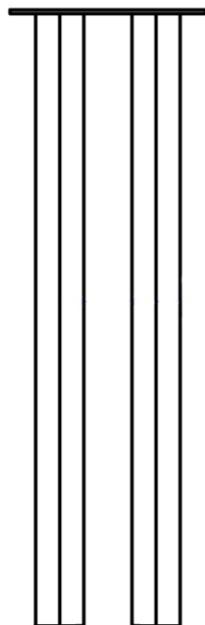

(1) X-Foot

### Tools Needed:

- Phillips screwdriver or impact drill
- 3/8" hex bit
- 13mm socket
- #3 Phillips bit
- Safety glasses

### RS4X

### Instructions

1. Align the connecting columns with the holes in the x-base floor plate.
2. Using the provided hardware (bolts and lock washers), attach the columns to the floor plate with the 13mm socket and impact drill.
3. Lay the table top upside down on cardboard or carpeted surface.
4. Position an assembled base onto the table top and align holes in mounting plate with predrilled holes in table top.
5. Using 3/8" hex bit and impact drill, install screws from hardware pack through the mounting plate and into the pre-drilled holes in table top.
6. Flip table upright and adjust leveling glides if necessary. Enjoy your table!
