

The stylish design of this mini keyboard compliments any working stations. Users can connect the keyboard with their computer through a USB connector and start enjoying it because it does not require a driver upon installation. Users can comfortably type with membrane keys in various activities. It also includes an embedded numeric keypad, LED indicator for num lock, caps lock and scroll lock keys. With its smooth and sleek surface this is a perfect selection that will look impressive on just about anything.

■ **Space Saving - Less Than 12" Wide**

The mini size keyboard is less than 12" wide, and is an impressive space saver for desktops in homes or offices. It is ideal for use in POS, kiosks, warehouses, manufacturing environments, or in any small working areas.

■ **Mini Keyboard Featuring 78 Keys**

The mini size keyboard is designed with 78 keys, and is equipped with an embedded numeric keypad which features three LED indicators for Num Lock, Scroll Lock and Caps Lock.

■ **Membrane Key Switch for Fast & Quiet Typing**

The membrane key switch features more than five million lifecycles, and its silicone rubber material can reduce noise when typing, offering a faster and quieter typing experience.
