

r-MicronQuick

Cloth is made from 70% Recycled Materials

Product Description

r-MicronQuick is Vileda Professional's **durable and washable microfibre cleaning cloth**. The cloth is made from **70% recycled microfibrils** made from 100% post-consumer plastic. With its superior cleaning performance it **removes up to 99.99% of viruses and bacteria** with just water. It allows streak-free cleaning with only one wipe on every surface such as stainless steel, plastic or ceramic. It is available in four colours.

Application area

r-MicronQuick is a durable cloth made of superior microfibre technology. It is ideal for **healthcare areas**, where a high level of cleanliness and hygiene are required. Beside this, r-MicronQuick can be used in hygienic sensitive areas like canteens, hospitals and patient rooms.

The **four colour coding system** allows a differentiation of the cloth, which reduces the risk of potential cross-contaminations. This multi-use cloth is specifically designed for **daily laundering** and is ideal for the pre-preparation methods.

How to use

- ✓ r-MicronQuick can be used dry, damp or wet
- ✓ Rinse and wring the cloth until desired moisture level required for the type of application and cleaning
- ✓ Fold the cloth three times and wipe the surface with the closed edge in the wiping direction
- ✓ Change cloth side when it has become dirty and apply 16 side technique
- ✓ Apply color coding to avoid cross contamination

Washing Recommendation

- ✓ Recommended washing conditions: 60 °C
- ✓ Maximum washing temperature: 95°C
- ✓ Avoid high alkalinity and strong bleaching activity (do not use chlorine bleach)
